Issue 16
30th May, 2022

Principal: Mrs. Carmel Barker

**ENROLMENTS OPEN FOR 2023
INTERVIEWS 8TH JUNE
PLEASE SUBMIT APPLICATIONS**

From the Head of Wellbeing

Dear Parents, Carers, Friends and Students of Marian College,

- ❖ *We encourage excellence and perseverance in learning,*
- ❖ *We strive for continuous improvement*

Winter prayer

Lord: In the midst of Winter, when the days are cold and wind can pierce, remind us of the warmth of your love. In the midst of Winter, when days are short, dawn comes late, and dusk arrives early, remind us that in the darkness your light still shines.

Amen

Winter Uniforms

It seems as though the real winter weather has finally arrived! To keep warm and cosy, we ask students to wear the winter uniform to school each day, and to remember that shorts are only for the warmer months. Winter weather can bring lots of much needed rain but it can get very cold as we all know and there is nothing worse than seeing students in shorts and t-shirts shivering in the cold.

Illness

The winter weather also seems to be bringing with it increased illnesses such as cold, flu and increased Covid

cases. We remind all students who are close contacts to wear a mask at school to prevent further spread of infection. Masks for others are not required but students who want to wear one to prevent illness should of course feel comfortable to do so.

Activities

Our students have enjoyed a few activities this past week, including Black Ranges Intermediate Boys Football and Girls Netball. Well done to them! We also had a fun Music workshop which was great fun for those students who were able to attend. Our Peer Support Program keeps rolling along and our Year 11 Leaders did a wonderful job running sessions for our Year 7s.

Parent Teacher Interviews

It was so nice to meet with parents at this night. It is such a pleasure to sit with parents and share insight into how their children are going at school. We value that time with parents and carers and the chance it gives us to connect over something we all care about - the kids!

Year 7 2023 Enrolment Interviews

We are holding these on the 8th June and encourage parents to please submit any applications by the end of this week so we can arrange an enrolment interview for your child. We look forward to meeting with you all on the 8th!

Student Free Days

There will be two student free days coming up - one will be a staff PD day on the 6th June and the other will be on June 17th. Ideally, we would not like to have two student-free days so close together but planning for PD has been harder this year as everyone goes back to Covid normal - there are less dates available for PD which means less chances to be selective with times.

Steph Saravanja
Head of Wellbeing

IN MY WORDS *with Mia Robb*

My story starts on June the 6th 2004 when I rudely interrupted a family brunch to make my grand entrance into this world. I was born to my beautiful mother and mentor Debbie, and father Mark, who very quickly became my best friend. I came home to my brother Jack, he is 11 years older than me and was thrilled to have a screaming crying new addition in the household. I completed our family of four, having a brother so much older than me meant I was there to annoy him and his friends anytime they hung out - this resulted in many buggy rides, double bounces on the trampoline and being a personal tackle bag when they played footy.

I started at Jack and Jill kindergarten when I was three years old. I have very fond memories of kinder which included making memories with unknown to me some of my lifelong best friends. After two years of kindergarten, it was time to make the first big step in my life, starting school. I attended Ararat West Primary School where I was lucky enough to have many of my kinder besties coming along with me. Primary school is something I look back on with nothing but a smile, it was an unreal experience for me. I will forever cherish the memories made with my primary school group - some of my favourites being the skipping team bus trips, competing at State athletics championships and winning all three school events as house captain (go gold house). I came to Marian College in Year 8 and although it was a rocky start for me I've met so many incredible people here, some of those I'm lucky enough to call my best friends. After this year I'm not entirely sure what comes next for me however I'm interested in going to university to study physiotherapy.

Sport has always played a huge part in my life, whether it be training, playing or watching my brother. I've participated in many

sports throughout my time, my favourites being netball and running. I started playing netball in 2016 with the Ararat Football Netball Club and have played there for the last seven seasons. Although netball is on hold for me at the moment I've taken on the role as co-coach of our superstar U13 team. I've loved the challenge thus far and cannot wait to see how we front up at the pointy end of the season. My dream is to win a premiership and after narrowly losing in four I'm so determined to make this happen.

My family and I are mad Richmond supporters and one of my favourite memories was attending the 2019 Grand Final. For those of you who know my dad, you'll know that anything is possible with him - this included bluffing our way into the Richmond after party. After avoiding many security staff, sure enough, we found our way into the party which resulted in many memorable photos, a dance floor filled with the players, a conversation with Dimma and one star-struck little girl.

We've been lucky enough to have our fair share of family holidays including travelling to the USA, Hawaii, Thailand, Vanuatu and Singapore. Having family across the globe allowed for many fun family trips and many unforgettable family reunions. One of the most memorable moments for me was bike riding down a volcano in Maui, the 20km ride was far from easy but the sunrise most definitely made the trek worthwhile. I've always loved travelling and it's something I'm really looking forward to doing once school is finished.

I feel very privileged to have grown up in such a loving, supportive household. To my mum, dad and brother (and of course Ruby) - I am beyond grateful for everything you do for me, words can't describe how thankful I am. Thank you for shaping me into the person I am today, I love you all so very much!!.

I know I sound like a broken record but I think the best piece of advice I can give younger students is to cherish the memories made in school. It really does fly by, to think I'll be finishing school in a few months sounds so surreal. I cannot thank the teachers and my cohort enough for supporting me and making my time so enjoyable. I wish my fellow Year 12s the best of luck with life!! Hopefully, it isn't too scary.

Love, Mia xx

IN MY WORDS *with Mia Carter*

Sooooo.... It's really serious now. Never in a million years did I actually begin to think that I would eventually have to write one of these but here I am. So bare with me while I try to explain my roller coaster of a so called life.

Honestly for as long as I can remember I have always thought and felt as though I have been so blessed from the day I was born to right at this very moment. Sure life in pieces has definitely not been all sunshine and rainbows but I've always been able to pick myself up and lean on the support of my amazing family and friends.

Starting it off with kindergarten which obviously was my peak, how could life get any better. Then primary school at Stawell 502. Baby Mia was definitely not happy with this decision as absolutely all of my friends from kinder were going to Stawell West... My parents continue this evil cycle later down the track, just you wait...!!! Anyway, primary school was all it was supposed to be; 4 boyfriends at once, fighting over one bounce, cheating in jump rope for heart and of course faking my weekly reading. Now next my dear beloved superhero parents Kristen and Greg decided to send me here. Marian. Where once again NONE of my friends were going. I was the only one from my school and oh my was I terrified. Now I know what you are thinking 'DO YOU GET DEJA VU' cause same, this song really should have come out 6 years ago (I did say my parents have an evil

cycle). Before starting here I think I probably cried a minimum of 80 times. But honestly being here at Marian, and I will NEVER admit this to my parents...(hi mum)...but being here was the best thing for me. I made so many more friends and definitely some great ones. It's great, I still have my old friends from primary school, it's like double the friends!!! High School for me has been great, I definitely left the 4 boyfriends trend back in primary school though lol. But seriously especially over the past few years I definitely have found my school family and I would not change it for the world.

I suppose I should probably mention my siblings... I have 3. An older sister, Jamie, she lives in Sydney far far away from us :(((next I have Will he's too close... jk jk. He's the protective brother that's sometimes a little too overprotective. And Brad's the favourite, he's good at literally everything and I am extremely aware you all already know that !!. My parents Kristen and Greg as I mentioned before are superheros and I'll tell you I wasn't using that phrase lightly. They really are. Absolutely no matter what the world chucks at them, especially over these past few years. They always seem to get right back up and do nothing else but put us kids first. They would move heaven and earth for us and I couldn't be more grateful for the love they give and so so proud of the strength they both have.

Now a little something you won't know about me; On my Dad's side of the family

we have Aboriginal heritage. We come from the tribe The Darug People and our ancestors are Yarramundi and Maria Lock from Western Sydney. Maria was the first Aboriginal child to be placed in the Native Institute at Parramatta where she won the yearly state examinations and then on the 26th of January 1824 she married a convict Robert Lock. This was the first legal marriage between an Aboriginal and a non Aboriginal person. Also Yarramundi's son (Colebee) was the first Aboriginal to receive a land grant and following his death Maria was granted his land at Blacktown.

A little message from me to you.

Remember, you can always find light in a bad time, sometimes you just need to search a little bit further to find it. You're amazing and loved and I know you have exactly what it takes to do whatever it might be that you want to do.

I hope your day is now a little bit brighter and you have a fabulous weekend.

MUSIC WORKSHOP

On Thursday 26th, Year 9-12 Music students attended a workshop at Ararat College led by duo This Way North and Mark Lang, who performed the night before at Ararat Live. The workshop talked about all aspects of music, such as being a performer, songwriting, distribution and becoming an all-round musician. Leisha and Cat led the combined Marian and Ararat College group through stage presence and performance craft, such as theatrics, movements, facial expressions, and engagement. Mark contributed thoughtful insight in the songwriting side, such as using inspiration to write, approaching songwriting from various angles, and completing a song. The workshop finished off with a performance by This Way North, as well as some question and answer time for the students. A message that the students really took to during this workshop was to just be themselves. Leisha highlighted how many of our favourite artists are famous because they were unapologetically themselves and wrote the music they wanted. Following the trend is not always the answer as you will always be behind the trend if you are continuously chasing it. The students all expressed their enjoyment of the workshop and their newfound energy to create, perform, and become their own artists.

College Tours For Year 7 Students and Families for 2023

Reserve a place for a tour
of the college and morning tea on
Monday 30th May 2022 or Friday 3rd June 2022

“Take the first step in a journey of life long learning”
Enquiries: 5352 3861 Email: principal@mcararat.catholic.edu.au

Marian College Year 7 2023 – Enrolment Interviews

Please note that the College will be conducting Enrolment Interviews for students and their families for Year 7, 2023 on Wednesday 8th June, 2022 3.30pm – 6.00pm. To secure an Enrolment Interview time, applications must be returned to Marian College before this date.

To obtain an Enrolment Pack please contact Meagan Bowen on 5352 3861 or email mbowen@mcararat.catholic.edu.au

YEAR 10 and 11 MID YEAR EXAMS

During Week 8 of this term we are conducting exams for Year 10 and 11 students. It is a three day week from Tuesday 14th June to Thursday 16th June. There is a public holiday on Monday and a report writing day on Friday.

During these three days both Year 10 and Year 11 students will attend school as normal and be either attending their scheduled exam or their usual timetabled classes. Most teachers will use their scheduled class time with students for revision or study for exams.

All exams are scheduled during normal class time, except for Year 11 English.

These exams are compulsory for all students. If your child is unable to attend because of illness or COVID-19 please let the office know the reason for their absence. Alternative arrangements can be made for your child to sit the exam at a different time.

Lucy Edwards
Head of Organisation and Student Pathways

CAREERS NEWSLETTER

NEWS, RESOURCES, EVENTS & INSPIRATION

Thursday 26 May 2022

YEAR 12 STUDENTS

Apply for university now!

VICTORIA

To be eligible for the early admission programs listed for Victoria, you will need to do the following:

Step 1: apply for the courses via the early entry program direct to the universities and complete any required forms.

Step 2: add the courses to your Victorian Tertiary Admissions Centre (VTAC) preference list from Monday 1 August, www.vtac.edu.au

La Trobe University

Aspire Early Admission Program
www.latrobe.edu.au/study/aspire

Swinburne University

Early Entry Program
<https://careernews.click/swinburneearlyentry>

RMIT University

Early Offer program
<https://careernews.click/rमितearlyoffer>

Victoria University

VU Guaranteed
<https://careernews.click/vuguaranteed>

Federation University

Early offer program
<https://careernews.click/feduniearlyoffer>

NEW SOUTH WALES

Note: the following is a direct entry program. If you aren't successful, you can apply for the course/s via the Universities Admissions Centre (UAC) to be considered on your Year 12 results.

Charles Sturt University

Round 2 applications for the Charles Sturt Advantage Program will close Friday 24 June,
<https://careernews.click/advantage>

Undergraduate teaching

If you are planning on applying for undergraduate teaching courses, you need to be aware of selection criteria for each state.

Undergraduate teaching courses are called 'initial teacher education' courses. The following is information for Victoria and New South Wales.

To be eligible for initial teacher education courses you will need to:

Complete a non-cognitive test

Victoria

CASPer Test: For most initial teacher education courses, you will need to sit the CASPer Test. This test is designed to measure personal and professional attributes,
<https://takealtus.com/casper/>

Australian Catholic University: will accept submission of the 'ACU Teacher Selector Statement' instead of the CASPer Test,
<https://careernews.click/acuteaching>

NSW

You may need to complete a Teaching Questionnaire via the Universities Admissions Centre, <https://careernews.click/uacteaching>

Alternatively, you may need to complete a Motivation to Teach statement direct to the university.

Achieve minimum academic requirements

Victoria: The minimum ATAR for initial teacher education courses in Victoria is 70 (or equivalent). Some universities have a higher ATAR requirement. You may be able to access courses with a lower ATAR if you are eligible for ATAR adjustments (e.g., academic and equity).

NSW: for detailed information on requirements, visit <https://careernews.click/nsweducation>

Meet course prerequisites

Check university websites for up-to-date information. From 2023, most Victorian and NSW courses will require senior level mathematics.

Literacy and numeracy

Complete the 'Literacy and Numeracy Test for Initial Teacher Education Students',
<https://teacheredtest.acer.edu.au/>

To search for initial teacher education courses, use the Course Seeker website,
www.courseseeker.edu.au

UNSW Law

Year 12 students planning to apply for undergraduate law courses at the University of New South Wales (UNSW) will need to sit the Law Admissions Test (LAT). Registrations for the test close Friday 12 August. For information on the test and to research law courses at UNSW, visit <https://careernews.click/unswlat>

Flinders University, Adelaide

Year 12 students planning to apply for courses at Flinders University can sit the UniTest to boost their ATAR selection rank. For information about the test and how to register, go to
<https://careernews.click/unitest>

Engineering and cyber security

Defence Civilian Undergraduate Scholarship (DCUS)

The Department of Defence is offering sponsorships to students who have completed their secondary education and are interested in pursuing an engineering or cyber security degree as a civilian student on campus at the UNSW Canberra at ADFA.

Civilian students will learn alongside military cadets who are training in order to join the Australian Defence Force in either the Navy, Army or Air Force. During the final year of study, you will apply for a position in the Defence Graduate Program to commence your career in Defence. Applications open soon, <https://careernews.click/defencescholarship>

Are you interested in agriculture?

If you would like to work in agriculture and are considering taking a gap year after school, the following two programs may interest you.

Ag Career Start

This is gap year program on a farm. You will live in an exciting regional location, earn a nationally recognised qualification, and build life-long industry connections. Applications will be open between 12 July – 18 October 2022, <https://agcareerstart.com.au/>

FarmReady Gap Year

Through this initiative you will sign up to get a 'Farm Ready' card and then link with Queensland based employers offering gap year work. Year 12 students can start their application now, <https://farmreadyhub.com/>

Seasonal fire fighting

Department of Environment, Land, Water and Planning are looking for people who want to help protect Victorian communities from bushfire to become seasonal firefighters as part of Forest Fire Management Victoria crews.

No experience is needed, and you will work for a period of up to 22 weeks over the November 2022 – April 2023 period. Applications open Thursday 7 July, <https://careernews.click/summercrew>

Technology traineeships

PwC Higher Apprenticeship program: you will build your business and tech skills while learning on the job and getting paid. Applications open 7 July for Year 12 students, <https://careernews.click/techtraineeship>

Microsoft traineeship program: you will be employed by MEGT and placed with an employer within the Microsoft Australia network. Expressions of interest are now open, <https://careernews.click/5ec979>

ALL STUDENTS

Australian Defence Force Academy (ADFA)

The following information has been copied from a Defence Force Recruiting Newsletter.

ADFA is situated in Canberra and is a university like no other, offering combined military and leadership training, with a world-class degree from the University of New South Wales (UNSW).

It has the best university student-to-teacher ratio in the country, amazing sports and recreational facilities and is one of Australia's most respected universities.

Why ADFA?

- The education and experiences of ADFA will equip you to deal with the professional and personal challenges of your chosen career
- Be trained in the art of leadership by experienced military professionals
- Access exceptional sporting and recreational facilities and be a part of a wide variety of sports and special-interest clubs
- Earn your degree from UNSW
- Choose from a range of degrees - Arts, Business, Engineering, Information Technology, Science and Technology
- Enjoy free medical and dental, subsidised food and accommodation
- Receive a starting salary of over \$40,000 plus super while studying and no Higher Education Loan Program (HELP) fees.

For more information on ADFA call 13 19 01 or visit <https://careernews.click/adfa>

Apprenticeships and Traineeships

The following are articles from Careers with STEM

What maths skills does a professional tradie need?

Think that if you're a budding tradesperson, dropping maths is no big deal? In actual fact, hands-on construction gigs use numbers a lot more than you'd think.

Here, we look at how algebra, trig and basic area skills are just as important to a successful tradie's toolkit as a fancy drill, <https://careernews.click/76853e>

Tradies 2.0: the tech tools taking over

With the modern day tradie's toolbox packed with more tech than tools, they're now more reliant on STEM smarts than ever. Here, we unpack the new gear shaking things up, <https://careernews.click/4ff160>

By signing up to this website, you will be able to:

- complete career interest tests and a career profile
- explore 'career bullseyes' – linking occupations to your favourite subjects
- explore occupations and courses
- read stories about people working in various careers

Access via <https://myfuture.edu.au/>

How much will your first university degree cost?

It's important to consider how much it will cost to study at university. Your first degree will be an 'undergraduate' degree, such as a bachelor's degree, associate degree, or a university Diploma.

Commonwealth Supported Place (CSP)

A CSP is a place at university where the Government pays for some of your course, and you pay the rest.

This is called the 'student contribution amount'.

You are entitled to a CSP at university or a higher education institute if you are:

- An Australian Citizen - residing in Australia for at least one unit of study contributing towards their course of study
- A New Zealand Citizen - residing in Australia for the duration of their study.
- A permanent visa holder - residing in Australia for the duration of their study.
- The course has Commonwealth Supported Places.

Student contribution amount

How much you owe for your university subjects and course will vary based on

- the course discipline you are studying
- if you are studying at a Government funded university or a private institute.

Student contribution bands

Courses fall into discipline 'bands'. This means that no matter where you study in Australia, CSP courses will cost roughly the same. The following are the 2022 minimum bands:

Band 1 - \$3985 per year

Agriculture, English, mathematics, education, clinical psychology, Indigenous and foreign languages, nursing, statistics etc.

Band 2 - \$8021 per year

Other health, allied health, built environment, computing, engineering, surveying, science, environmental studies, pathology, visual and performing arts, professional pathway psychology, professional pathway social work.

Band 3 - \$11,401 per year

Dentistry, medicine, veterinary science.

Band 4 - \$14,630 per year

Law, accounting, administration, economics, commerce, communications, society and culture.

HECS-HELP Loan

CSP students can apply for a HECS-HELP loan providing they meet residency eligibility criteria. This loan will enable you to defer your payments until you are required to start paying back your student contribution amount. You can make voluntary repayments at any time.

Fee Paying Places

Some private institutes offer fee paying places for undergraduate courses. Students don't receive Government subsidies and are required to pay the full fee amount. They can apply for FEE-HELP and defer their payments.

Very important information

If you begin your enrolment with a public or private university and apply for a CSP, HECS-HELP or FEE HELP, you must have passed at least 50 per cent of your total attempted units (subjects) in order to remain eligible for any of these schemes.
